CAN YOU HEAR THEM?

Make a Difference.

Every three seconds, poverty takes at least one child's life, resulting in 30,000 deaths each day.

Today, more than 128 million children do not attend school.

Every minute of every day, a child under the age of 15 becomes infected with HIV.

Currently more than 11 million children in Africa have lost at least one parent to HIV/AIDS; that number is expected to reach 20 million by 2010.

Suicide rates have doubled for children of 5-14 years old in the past generation.
